Department of Civil Engineering

Volume I, Issue I (June-2019)

From desk of HOD

As India is going through major infrastructural development, hence Civil Engineers to play leading role in national building, transportation and so on. My message to the student and parents is to work very hard to achieve their goals and Excel as an Apex civil engineers of the country.

About The Department

The department of civil engineering was started in the year of 1984 with an aim of promoting high quality education in the field of civil engineering. The academic activities of the department emphasis deep understanding of fundamental principles, development of creative ability to handle the challenges of civil engineering.

The department currently offers Diploma program in civil engineering following the GTU curriculum. The curriculum broadly covers the engineering subjects of related fields such as surveying, building materials and constructions, soil mechanics, structural analysis and design, hydraulics and water resources engineering, environmental engineering, transportation engineering, etc..

Industrial site visits/Expert Lectures are arranged for students to gain practical experience. During the semester various technical events like SSIP is organized for students to explore the knowledge and interact with industries.

Vision

The department envisions to achieve professionals in emerging field of civil engineering to meet aspirations of the society, by transforming students to be technically skilled, managers, ethical, entrepreneur's leaders, and environmentally sensible civil engineers.

Mission

1. To impart civil engineering skill to enhance their employability in the industries.
2. Establish industry collaboration through internship and interaction with professional society through experts, workshops.

Activities and Events

Technical Finishing School Training Programme

Civil department organized the extra higher skill development programme for the final year students in which students can able to perform operational skills of advanced instrument (Total Station) for the survey work on site, which is beneficial for the final year students, when they will go for actual site work conditions.

Finishing School Training Programme

Institute organize every year finishing school training programme for final year student for their future development. Under this programme students can motivate themselves for developing communication skills for interview.
